Chairman's Statement

GLG FY 2009 results have been impacted by the world economic turmoil that has continued to affect the global uncertainty. Amid these uncertainties, GLG managed to sustain its profitability.

The global impact of the financial crisis on credit markets worldwide has affected trade movement across the entire global supply chain. Though the conditions were challenging, we have been able to maintain our customer base as well as achieve the current results. This has reaffirmed the group strength in our ability to adapt to challenges through the implementation of lean management and continuous efforts in retaining committed staff.

The global consolidation in the supply chain has also created opportunities and challenges. Our ability to adapt to changes has enabled us to respond to rapid changes in a dynamic market while taking advantage of the opportunities. We were able to identify new emerging markets in this fast changing environment.

The group recorded a turnover of US$198 million. The global recession has led to a decrease in group turnover by 6.27%.The profit attributable to shareholders has declined, due to a one time cost and an impairment of US$2.8 million. Our net worth increased by 8.3% from US$25.1 million to US$27.2 million due to the retention of earnings. Leverage has declined slightly from 0.24 to 0.29 and liquidity improved from 4.8 to 5.4.

In Singapore, the Government is active in supporting local companies to weather this economic turmoil. A series of risk sharing financial schemes have been introduced to induce banks to support local companies to cope with this crisis. We are able to leverage on this initiative from the schemes to strengthen our financial position

Our commitment to all stakeholders remains firm. We will continue to cater to the interests of our employees, shareholders, customers and suppliers. Our continuous success lies in our commitment as well as our abilities to balance the differing interests of all our stakeholders against an environment of uncertainty and extreme volatility. This will be the greatest challenge ahead of us.

Customers are now focusing on their core competencies and driving their sourcing operations to achieve efficiency and cost savings. They are extremely selective in choosing partners to team up with. Partners are selected based on their abilities to achieve their common objective of sustainability in this volatile environment. In order to complement our customers' needs of price competitiveness, high quality standards and speed to market solutions, we also have a strong dedicated team of designers who focus on providing the latest fashion designs to our customers. We have also embarked on cost savings with effective output within the group. This has enhanced our service to most of our existing customers. Retail sentiment continues to weaken. There is a shift in demand from high-end products and luxury goods to value brands. This will benefit us in sustaining our business volume at current levels.

Although it is a common view that the worst in the recession is over, the recovery is, however weak. It might take some time before consumer confidence revives significantly. We will continue to maintain our business at current level as well as defend our market position with increased emphasis on quality, short turnaround time and value for money. We have started our own private labels and are progressing steadily in establishing the brands. They now retail in 4 countries – Singapore, Hong Kong, Taiwan and Thailand.

The group continues to respond to opportunities and refocus our resources on markets with great potential. We have the capacity to target EEC market. With high production capacities in Cambodia, Sri Lanka and outsourcing facilities in Bangladesh and Vietnam, we have potential growth for EEC in FY 2010. We have achieved a breakthrough during the year, in securing the agency rights from Sprockets. We will continue to obtain more agency rights that will contribute positively to our revenue and bottom-line.

The group are fully committed to the protection of the environment, in particular, the conservation of raw materials, electricity and consumable products. We also complement customers' requirements of being environmentally friendly by using organic cotton and recycled yarn. We have reduced our energy cost by using energy saving appliances as well as saving trees by recycling paper. We continue to monitor the environmental impact of our operations and improve workplace safety.

I would like to express my sincere gratitude to the members of the Board for their continuous advice and support. I would also like to thank the management team, staff as well as valued customers and suppliers around the world who have helped us to achieve our results. We are united by this economic crisis and the concerted effort by each and every one of us will ensure that we will ride out of these difficult times, becoming stronger and better.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of GLG Corp Ltd are responsible for the corporate governance of the consolidated entity. The Board guides and monitors the business and affairs of GLG Corp Ltd on behalf of the shareholders by whom they are elected and to whom they are accountable.

COMPOSITION OF THE BOARD

The composition of the Board is determined in accordance with the following principles and guidelines:

- the Board should comprise directors with an appropriate range of qualifications and expertise; and
- the Board shall meet at least every second month and follow guidelines set down to ensure all directors are made aware of, and have available, all necessary information to participate in an informed discussion of all agenda items.

THE DIRECTORS IN OFFICE AT THE DATE OF THIS STATEMENT ARE AS FOLLOWS:

Name	Position
Estina Ang Suan Hong	Executive Chairman and Chief Executive Officer
Samuel Scott Weiss	Non-executive Deputy Chairman and Lead Independent Director
Eu Mun Leong	Director and Chief Financial Officer
Yong Yin Min	Director
Christopher Chong Meng Tak	Independent Director
Ernest Seow Teng Peng	Independent Director

The skills, experience and expertise relevant to the position of Director as well as the period of office held by each Director are set out in the Directors' Report on page 12 to 26.

BOARD RESPONSIBILITIES

As the Board acts on behalf of the shareholders and is accountable to the shareholders, the Board seeks to identify the expectations of the shareholders as well as other regulatory and ethical expectations and obligations. In addition, the Board is responsible for identifying areas of significant business risk and ensuring arrangements are in place to adequately manage those risks. The Board, through the Audit Committee, receives reports from management on an on-going basis as to the material risks associated with the company's operations and the recommended risk mitigation process that they undertake. The Board has established a Code of Conduct which in summary, requires that at all times Directors and employees act with the integrity, objectivity and in compliance with the letter and spirit of the law and Company policies. GLG Corporation has established a written policy designed to ensure Compliance with ASX listing rule disclosure and accountability at senior executive level for compliance.

Under the guidance of the ASX's Corporate Governance Principles and Recommendations (2nd edition), the Board has established a Nomination and Remuneration Committee and an Audit Committee. The name of members of each committee and their attendance at meetings is contained on page 19 of the Annual Report.

The Nomination and Remuneration Committee have established a policy prohibiting transactions in associated products which limit the economic risk of participating in unvested entitlements under equity-based remuneration scheme.

A copy of the Company's Code of Conduct, Audit Committee charter, Remuneration Committee charter and the terms and conditions of the continuous disclosure and shareholder communication policy is made publically available on the Company's website.

CORPORATE GOVERNANCE – PRINCIPLES AND RECOMMENDATIONS

GLG Corp Ltd adopts the 2nd edition principles and recommendations put forward by the ASX Corporate Governance Council ("ASXCGC"). In accordance with the ASXCGC's recommendations, the Corporate Governance Statement must report on the Company's adoption of the ASXCGC's principles and recommendations on an exception basis, whereby disclosure is required of any recommendations that have not been adopted, together with the reasons why they have not been adopted. GLG Corp Ltd's corporate governance principles and policies are structured with reference to the ASXCGC's Corporate Governance Principles and Recommendations (2nd edition), which are as follows:

(i) Lay solid foundations for management and oversight;
(ii) Structure the Board to add value;
(iii) Promote ethical and responsible decision making;
(iv) Safeguard integrity in financial reporting;
(v) Make timely and balanced disclosures;
(vi) Respect the rights of shareholders;
(vii) Recognise and manage risk; and
(viii) Remunerate fairly and responsibly.

GLG Corp Ltd's corporate governance practices were in place throughout the period ended 30 June 2009. As set out below, with the exception of the departures from the ASXCGC's principles and recommendations in relation to the independence of the Board and Chairperson, the roles of Chairperson and Chief Executive Officer being performed by separate people and Board performance evaluation, the corporate governance practices of GLG Corp Ltd were compliant with the Council's Corporate Governance Principles and Recommendations.

As required under the ASXCGC's principles and recommendations and section 295 of the *Corporations Act*, the Board can confirm that it has received assurance from the Chief Executive Officer and Chief Financial Officer that the declaration contained on page 30 of the Annual Report is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

INDEPENDENCE OF BOARD MEMBERS

ASXCGC best practice recommendation 2.1 requires a majority of the Board to be Independent Directors, 2.2 recommends the Chairperson should be an independent director and 2.3 requires the roles of Chairperson and Chief Executive Officer should not be exercised by the same individual.

ASXCGC provides a definition of independence to include not being a member of management and someone who is free of any other business or other relationships that could materially interfere with – or could reasonably be perceived to materially interfere with – the independent exercise of their judgment. In accordance with this definition and further independence guidelines outlined in ASX Corporate Governance Principles and Recommendations, three of the six Directors were not considered to be independent. The ASX Corporate Governance Principles and Recommendations require the materiality threshold that was used to determine whether a Director is independent to be disclosed. Notwithstanding there are no contracts outside those disclosed in the Annual Report, a level of materiality of 5% of the Independent Directors' annual income has been set for any non-remuneration based consulting or other financial arrangements.

The Board acknowledges the best practice requirement to maintain a majority of Independent Directors on the Board. In assessing the makeup of the Board, GLG Corp Ltd aims for its directors to be independent in thought and judgement, as well as expecting the Directors to add value. GLG Corp Ltd operates in an entrepreneurial environment, and both requires and benefits from the passionate involvement of Directors who have been instrumental in launching the Company and the business, and who have specialised knowledge of, and expertise in, this business sector.

As part of discharging its obligations as Directors of the Company, the Company encourages Directors to seek independent professional advice at the expense of the Company where appropriate. Where issues or matters arise in relation to the running of the Company, that in the opinion of the Directors require independent professional advice to assist in the decision making surrounding the resolution of these issues, the Board may engage such professional advice on standard commercial terms.

The ASXCGC recommends that the Chairperson should be an Independent Director. The Chairperson of GLG Corp Ltd, Estina Ang Suan Hong, the founder of the business, is integral in maintaining the business and important customer and banking relationships and carries out a strategic executive role. GLG Corp Ltd has appointed a lead Independent Director, which is recommended by the ASXCGC where the Chairperson is not an independent Director. The role of the lead Independent Director is to act as a representative for any collective views of the non-executive Directors, to ensure that the voices of the non-executive Directors carry significant weight in the Board's decision making process, and to ensure that the Board understands and maintains boundaries between the Board and management responsibilities.

The ASXCGC also recommends that the role of Chair and CEO should not be exercised by the same individual. As stated above, the Chairperson and CEO of GLG Corp Ltd, Estina Ang Suan Hong, the founder of the business, is integral in maintaining the business and important customer and banking relationships and carries out a strategic executive role as both Chair and CEO of the Company.

The Company's corporate governance practices and policies in relation to Nomination Committee charter, which outlines the Company's policy for nomination and appointment of directors are publically available on the Company's website.

PERFORMANCE EVALUATION

ASXCGC best practice recommendation 2.5 requires the disclosure of the process for performance evaluation of the Board, its committees and individual Directors. The Company has devised and is in the process of approving an internally run Board Performance evaluation process and expects this to be implemented in the coming financial year. The Directors do consider and gauge the overall performance of the Board and committees during the course of the financial year.

Performance evaluation of senior executives occurred during the financial year and was in accordance with the process that is disclosed in the Company's Corporate Governance Plan. There are currently no schemes for retirement benefits, other than superannuation, for any Directors.

DEALING IN GLG CORPORATION'S SECURITIES BY DIRECTORS AND EMPLOYEES

Directors, officers and employees of the Company are prohibited from trading in GLG Corp Ltd securities apart from the period 15 days commencing the day after GLG Corp Ltd announces its half-yearly , preliminary final reports and full year accounts. A full outline of the Company's securities trading policy is made publically available on the Company website.

RISK MANAGEMENT POLICY

Risk is an inherent part of GLG Corp's business. GLG Corp operates in a highly competitive market sector. GLG Corp regards material business risks as threats to the achievement of GLG Corp's objectives and goals and to the successful execution of its strategies.

The main risks faced by GLG Corp are:

- Operational risk (including dependence on existing major suppliers, reliance on the USA consumer market, new trade restrictions, reliance on executive directors and key executives, uncertainties relating to expansion plans);
- Funding risk, in that GLG Corp is dependent upon the continued support of its banks to provide trade financing facilities on an ongoing basis;
- Reputation risk;
- Legal, compliance and documentation risk (including product liability, legal compliance guidelines set by customers);
- Regulatory risk;
- Outsourced manufacturing and other services;
- Competitive risk;
- Investment risk;
- Credit risk;
- Liquidity risk; and
- Foreign Exchange risk.

The Audit Committee requests senior executives to review and monitor material business risks applicable to the business and ongoing operations and reports to the Board for approval.

Full disclosure of the Company's policies in relation to risk oversight and management of material business risk are made publically available on the Company website.

OTHER INFORMATION

The Company's Corporate Governance practices and policies in relation to the matters reserved to the Board, matters delegated to senior executives and a copy of the Board charter are publicly available at the Company's registered office. The policies have also been posted on the Company's website.

PRINCIPAL ACTIVITIES

The consolidated entity's principal activities in the course of the financial year were the global supplier of knitwear/apparel and supply chain management operation.

REVIEW OF OPERATIONS

The discussion that follows compares the Consolidated Income Statement for the year ended 30 June 2009 with that of 30 June 2008 (all currencies are in US Dollars unless otherwise stated).

GLG's net profit declined by 4,241 thousand to 2,083 thousand, against a net profit of 6,324 thousand in the previous year. The decline was due to lower revenue and higher selling and distribution expenses and other expenses as well as inclusion of an impairment charge of 2,800 thousand.

GLG's sales decreased by 13,104 thousand, or 6.27% to 196,021 thousand compared to sales of 209,125 thousand in the previous year. The decline in sales was affected mainly by lower orders from clients.

Other revenue decreased by 215 thousand to 642 thousand as compared to 857 thousand in previous year as a result of lower average commission rate received from suppliers.

Other income increased by 478 thousand to 852 thousand was largely due to a one off insurance compensation.

Cost of sales decreased by 11,132 thousand, or 5.92%, to 176,939 thousand compared to cost of sales of 188,071 thousand in the previous year, and was consistent with the decrease in sales.

GLG's gross profit was 19,082 thousand compared to a gross profit of 21,054 thousand in the previous year as a result of lower sales. Gross margin declined by 0.33% to 9.73%, because of more aggressive pricing to gain or maintain market share.

Selling and distribution cost went up to 2,061 thousand compared to 1,672 thousand in the previous year. The increase in expenses was due mainly to a one off commission expense paid during the financial year to enhance future sales. Administrative expenses decreased marginally by 349 thousand, or 3.27% to 10,298 thousand compared to 10,647 thousand in the previous year. This was the result of cost cutting measures implemented during the year.

Finance costs were reduced to 542 thousand compared to 1,498 thousand in the previous year. The decrease was due to lower volume of letters of credit processed and the assumption of interest expense by suppliers.

Tax expense increased by 108 thousand to 923 thousand compared to 815 thousand in the previous year. This was caused by additional tax assessments for prior years.

The discussion that follows compares the consolidated balance sheet as at 30 June 2009 with that of 30 June 2008.

Cash as at 30 June 2009 increased by 2,933 thousand, or 76.60%, to 6,762 thousand compared to 3,829 thousand as at 30 June 2008. The increase in cash was mainly due to draw down of borrowings prior to year end.

Trade and other receivables decreased by 732 thousand, or 3.53%, to 19,994 thousand as at 30 June 2009 compared to 20,726 thousand as at 30 June 2008. The decrease was the result of the higher volume of shipments prior to year end offset by an allowance for doubtful debts of 2,800 thousand.

Inventory was 41 thousand compared to Nil for previous year. This was for the cost of finished garment stocks under a private label wholesale trading unit which commenced operation during the year.

Other financial assets increased by 2,062 thousand, or 41.00%, to 7,147 thousand as at 30 June 2009 compared to 5,085 thousand at 30 June 2008. The increase was attributable to long term trade receivables from third parties in the current year compared to nil as at 30 June 2008.

Other current assets increased by 82 thousand, or 44.09%, to 268 thousand as at 30 June 2009 compared to 186 thousand as at 30 June 2008. The increase was attributable mainly to prepayments for insurance, rent and recoverable billings on behalf of suppliers.

Total payables and borrowings increased by 2,135 thousand, or 41.42%, to 7,289 thousand as at 30 June 2009 compared to 5,154 thousand as at 30 June 2008 after accounting for the off-settable trust receipts.

Equity increased to 27,160 thousand as at 30 June 2009, from 25,148 thousand as at 30 June 2008, mainly from retained profits as at 30 June 2009.

The discussion that follows compares the Consolidated Statement of cash flow as at 30 June 2009 with that of 30 June 2008.

GLG's cash from operating activities decreased to an inflow of 417 thousand for the year ended 30 June 2009 compared to an inflow of 6,913 thousand for the year ended 30 June 2008. The reduction in the cash flow from operating activities is mainly due to higher level of uncollected receivables from year end shipments and higher payments to suppliers.

We believe the cash flow from operations of GLG remains sufficient to meet our working capital requirements, capital expenditures, debt servicing and other funding requirements for the foreseeable future.

CHANGES IN STATE OF AFFAIRS

During the financial period there was no significant change in the state of affairs of the consolidated entity other than that referred to in the financial statements or notes thereto.

DIVIDENDS

In respect of the financial year ended 30 June 2009, the Directors do not recommend the payment of a final dividend and no interim dividend was paid. In respect of the financial year ended 30 June 2008, no dividend was declared.

INDEMNIFICATION OF OFFICERS AND AUDITORS

During the financial year, the company paid a premium in respect of a contract insuring the directors of the company (as named above), the company secretary, Shane Hartwig, and all executive officers of the company and of any permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the company or of any related body corporate against a liability incurred as such an officer or auditor.

DIRECTORS' MEETINGS

The following table sets out the number of Directors' meetings (including meetings of committees of Directors) held during the financial year and the number of meetings attended by each Director (while they were a Director or committee member). NON-AUDIT SERVICES

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in Note 32 to the full financial report.

The Directors are satisfied that the provision of non-audit services, during the year, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The Directors are of the opinion that the services as disclosed in Note 32 to the full financial statements do not compromise the external auditors' independence, based on advice received from the Audit Committee, for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor, and
- none of the services undermine the general principles relating to auditor independence as set out in Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is included on page 27 of the financial report.

ROUNDING OFF OF AMOUNTS

The Company is a company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order amounts in the Directors' report and the financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

All amounts are presented in US dollars, unless otherwise noted.

REMUNERATION OF DIRECTORS AND SENIOR MANAGEMENT

Each executive Director of the Company has entered into an Executive Service Agreement with Ghim Li Global Pte Ltd, a major subsidiary of GLG Corp Ltd. They are not remunerated separately for being a Director or executive of the Company or other operating entities. Under their respective terms of engagement, all executives, with the exception of Mr Yong Yin Min:

- commenced their terms as an executive of Ghim Li Global Pte Ltd on 1 January 2005, for a 3 year term, and thereafter their engagement automatically continues from year to year, unless their Executive Service Agreement is terminated;
- are covenanted to not compete against GLG's operations for a period of 12 months after cessation of employment with Ghim Li Global Pte Ltd;
- agree that either party may terminate their Executive Service Agreement by giving 3 months' written notice. In addition, Ghim Li Global Pte Ltd may without prior notice terminate their Service Agreements under certain conditions, for example, if the executive commits a serious breach of his or her obligations, or is guilty of grave misconduct in the discharge of his or her duties, or becomes bankrupt.
  The service agreements contain otherwise standard terms, including with regard to each executive's duties, Ghim Li Global Pte Ltd owns any intellectual property created by its executives, confidentiality, entitlements to minor benefits in addition to their remuneration, and devoting substantially the whole of their time and attention during business hours to the discharge of their duties.

Each executive Director receives a salary per annum. They may also be entitled to an annual bonus determined by the Nomination and Remuneration Committee, in its absolute discretion. However, there was no bonus paid during the year. At 1 January 2009 the executives took a 25% pay cut in order to reduce costs and preserve cash for the operations.

Each of the key managers have entered into a service agreement with Ghim Li Global Pte Ltd, the general terms of which are not materially different to those of the executive Directors described on page 21.

Each key manager receives a salary per annum, reviewed by the Chief Executive Officer annually with reference to the progress of GLG. Each may also be entitled to an annual bonus determined by the Chief Executive Officer, reviewed by the Nomination and Remuneration Committee, and approved by the Board taking into account overall management performance and the Company's profit for the year. There were no bonues paid in respect of the financial year ended 30 June 2009.

SHARE OPTION PLAN

In respect of each Independent Director, upon listing of the Company, Ghim Li Group Pte Ltd (ultimate parent entity of GLG Corp Ltd) agreed to assign 300,000 shares to an escrow agent on or before 11 October 2006. Each Independent Director was entitled to receive up to 100,000 of these GLG Corp Ltd shares for nil consideration, receivable as follows:

Upon the first anniversary of their appointment	33,333 shares for 1 year's continuous service as a Director
Upon the second anniversary of their appointment	33,333 shares for 2 year's continuous service as a Director
Upon the third anniversary of their appointment	33,333 shares for 3 year's continuous service as a Director

The purpose of the share options is to:

- Provide long term incentive to each Independent Director to remain with the group
- Improve the long term performance of the Company

SHARE OPTION PLAN (CONT'D)

The options issued to each of the Non Executive Directors formed part of their overall compensation package and represented the Long Term Incentive component of the agreed package. This component of the package was determined after considering and reviewing packages being paid by comparable listed companies both in terms of size and profitability. The shares are issued by the Executive Chairman and not by the Company.

The following share based payment arrangements were in existence during the year:

OPTION SERIES	NUMBER	GRANT DATE	EXPIRY DATE	EXERCISE PRICE	GRANT DATE FAIR VALUE
(1) Issued 11 October 2006	100,000	14/12/05	11/10/06	-	0.74
(2) Issued 11 October 2007	100,000	14/12/05	11/10/07	-	0.74
(3) Issued 11 October 2008	100,000	14/12/05	11/10/08	-	0.74

The series 3 options vested during the current reporting period (2008: 100,000).

The fair value of options vested during 2008 was $0.74. Each Independent Director was granted shares at a zero strike price. The value of the options was determined as the difference between the share price at grant date and the strike price of zero.

The following reconciles the outstanding share options granted under the share option plan at the beginning and end of the financial year:

	2009		2008

Christopher Chong Meng Tak	(3)Issued 11 October 2008	-	33,333	100%	n/a	6%

During the year, the following directors exercised options that were granted to them as part of their compensation. Each option converts into one ordinary share of GLG Corp Ltd.

NAME	NO. OF OPTIONS EXERCISED	NO. OF ORDINARY SHARES OF GLG CORP LTD ISSUED	AMOUNT PAID	AMOUNT UNPAID
Samuel Scott Weiss	33,333	33,333	$nil	$nil
Ernest Seow Teng Peng	66,666	66,666	$nil	$nil
Christopher Chong Meng Tak	66,666	66,666	$nil	$nil

The following table summarises the value of options granted, exercised or lapsed during the annual reporting year to the identified directors and executives:

	VALUE OF OPTIONS GRANTED AT THE GRANT DATE (i) US$	VALUE OF OPTIONS EXERCISED AT THE EXERCISE DATE (ii) US$	VALUE OF OPTIONS LAPSED AT THE DATE OF LAPSE (iii) US$
Samuel Scott Weiss	-	2,339	-
Christopher Chong Meng Tak	-	2,339	-
Ernest Seow Teng Peng	-	2,339	-

SHARE OPTION PLAN (CONT'D)

(i) The value of options granted during the period is recognised in compensation over the vesting period of the grant, in accordance with Australian accounting standards.
(ii) The value of options exercised is determined as the share price of GLG at grant date.
(iii) The value of options lapsing during the period due to the failure to satisfy a vesting condition is determined assuming the vesting condition had been satisfied.

The Directors' report is signed in accordance with a resolution of the Directors made pursuant to s.298 (2) of the Corporations Act 2001.

Independent auditor's report to the members of GLG Corp Ltd

Report on the Financial Report

We have audited the accompanying financial report of GLG Corp Ltd, which comprises the balance sheet as at 30 June 2009, and the income statement, cash flow statement and statement of changes in equity for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year as set out on pages 30 to 74.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements,* that compliance with the Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Deloitte.

Auditor's Independence Declaration

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's Opinion

In our opinion:

(a) the financial report of GLG Corp Ltd is in accordance with the *Corporations Act 2001*, including:
  (i) giving a true and fair view of the company's and the consolidated entity's financial position as at 30 June 2009 and of their performance for the year ended on that date; and
  (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and

(b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 2.

Material Uncertainty Regarding Continuation as a Going Concern

Without qualifying our opinion, we draw attention to the matters detailed in Note 2 in the financial report which indicate that the company and the consolidated entity are dependent upon the continuing financial support of their bankers. This condition, along with the other matters set forth in Note 2, indicate the existence of a material uncertainty which may cast significant doubt about the ability of the company and consolidated entity to continue as going concerns and whether they will realise their assets and extinguish their liabilities in the normal course of business and at the amounts stated in the financial report.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 20 to 26 of the directors' report for the year ended 30 June 2009. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of GLG Corp Ltd for the year ended 30 June 2009, complies with section 300A of the *Corporations Act 2001*.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The financial report is a general purpose financial report which has been prepared in accordance with the Corporations Act 2001, Accounting Standards and Interpretations, and complies with other requirements of the law. The financial report includes the separate financial statements of the Company and the consolidated financial statements of the Group.

Accounting Standards include Australian equivalents to International Financial Reporting Standards ('A-IFRS'). Compliance with the A-IFRS ensures that the financial statements and notes of the Company and the Group comply with International Financial Reporting Standards ('IFRS').

The financial statements were authorised for issue by the Directors on 30 September 2009.

Basis of preparation

The financial report has been prepared on the basis of historical cost, except for financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in US dollars, unless otherwise noted.

The Company is a company of the kind referred to in ASIC Class Order 98/100, dated 10 July 1998, and in accordance with that Class Order amounts in the financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

Going concern

The directors of the Company have prepared the financial report on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business. As such the financial statements do not include any adjustments as to the recoverability and classification of assets and amounts and classification of liabilities that might be necessary should the Company and Group not continue as going concerns. The Directors acknowledge that the Group and Company face significant uncertainties during this global financial crisis they are dependent on the financing facilities from banks as disclosed in Note 26(b) to enable them to continue as going concerns. The majority of the existing facilities of the Company and Group are due within 12 months as detailed in Note 15. Unused facilities are available to the Company and Group, but these facilities also do not extend past 12 months from 30 June 2009.

The Directors are confident that the Company and Group will receive the continued financial support from their current bankers or are able to source replacement facilities from other banks. However, if the continued financial support of the bankers or alternative funding is not available, significant uncertainty would exist as to whether the Company and Group will continue as going concerns and, therefore, whether they will realise their assets and extinguish their liabilities in the normal course of business and at the amounts stated in the financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Adoption of new and revised Accounting Standards

In the current year, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current annual reporting period. Details of the impact of the adoption of these new accounting standards are set out in the individual accounting policy notes below.

Standards and Interpretations issued not yet effective

At the date of authorisation of the financial report, a number of Standards and Interpretations were in issue but not yet effective. Initial application of the following Standards will not affect any of the amounts recognised in the financial report, but will change the disclosures presently made in relation to the Company's financial report:

STANDARD	EFFECTIVE FOR ANNUAL REPORTING PERIODS BEGINNING ON OR AFTER	EXPECTED TO BE INITIALLY APPLIED IN THE FINANCIAL YEAR ENDING
• AASB 101 'Presentation of Financial Statements' (revised September 2007), AASB 2007-8 'Amendments to Australian Accounting Standards arising from AASB 101', AASB 2007-10 'Further Amendments to Australian Accounting Standards arising from AASB 101'	1 January 2009	30 June 2010
• AASB 8 'Operating Segments', AASB 2007-3 'Amendments to Australian Accounting Standards arising from AASB 8'	1 January 2009	30 June 2010
• AASB 2009-2 'Amendments to Australian Accounting Standards – Improving Disclosures about Financial Instruments'	1 January 2009 (and that ends on or after 30 April 2009)	30 June 2010

Initial application of the following Standards/Interpretations is not expected to have any material impact on the financial report of the Company:

STANDARD	EFFECTIVE FOR ANNUAL REPORTING PERIODS BEGINNING ON OR AFTER	EXPECTED TO BE INITIALLY APPLIED IN THE FINANCIAL YEAR ENDING
• AASB 123 'Borrowing Costs' (revised), AASB 2007-6 'Amendments to Australian Accounting Standards arising from AASB 123'	1 January 2009	30 June 2010
• AASB 3 'Business Combinations' (revised), AASB 127 'Consolidated and Separate Financial Statements' (revised) and AASB 2008-3 'Amendments to Australian Accounting Standards arising from AASB 3 and AASB 127'	Business combinations occurring after the beginning of annual reporting periods beginning 1 July 2009	30 June 2010
• AASB 2008-5 'Amendments to Australian Accounting Standards arising from the Annual Improvements Project'	1 January 2009	30 June 2010
• AASB 2008-6 'Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project'	1 July 2009	30 June 2010
• AASB 2008-7 'Amendments to Australian Accounting Standards – Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate	1 January 2009	30 June 2010
• AASB 2008-8 'Amendments to Australian Accounting Standards – Eligible Hedged Items'	1 July 2009	30 June 2010
• AASB 2009-4 'Amendments to Australian Accounting Standards arising from the Annual Improvements Process'	1 July 2009	30 June 2010

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

STANDARD	EFFECTIVE FOR ANNUAL REPORTING PERIODS BEGINNING ON OR AFTER	EXPECTED TO BE INITIALLY APPLIED IN THE FINANCIAL YEAR ENDING
• AASB 2009-5 'Further Amendments to Australian Accounting Standards arising from the Annual Improvements Process'	1 January 2010	30 June 2011
• AASB 2009-6 "Amendments to Australian Accounting Standards"	1 January 2009	30 June 2010
• AASB 2009-7 "Amendments to Australian Accounting Standards"	1 July 2009	30 June 2010

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Basis of consolidation

The consolidated financial statements are prepared by combining the financial statements of all the entities that comprise the consolidated entity, being the Company (the parent entity) and its subsidiaries as defined in Accounting Standard AASB 127 'Consolidated and Separate Financial Statements'. A list of subsidiaries appears in note 24 to the financial statements. Consistent accounting policies are employed in the preparation and presentation of the consolidated financial statements.

On acquisition, the assets, liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. If, after reassessment, the fair values of the identifiable net assets acquired exceeds the cost of acquisition, the deficiency is credited to profit and loss in the period of acquisition.

The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised.

The consolidated financial statements include the information and results of each subsidiary from the date on which the Company obtains control and until such time as the Company ceases to control such entity. The consolidated financial statements have been accounted for as reverse acquisition of companies under common control and the consolidated financial statements have been prepared using the reverse acquisition accounting method.

In preparing the consolidated financial statements, all intercompany balances and transactions, and unrealised profits arising within the consolidated entity are eliminated in full.

(b) Joint venture arrangements

Jointly controlled entities

Interest in jointly controlled entities in which the Group is a venturer (and so has joint control) are accounted for under the equity method in the consolidated financial statements and the cost method in the Company financial statements.

Investments in jointly controlled entities where the Group is an investor but does not have joint control over that entity are accounted for as an available-for-sale financial asset or, if the Group has significant influence, by using the equity method.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(c) Foreign currency

The individual financial statements of each group entity are presented in its functional currency being the currency of the primary economic environment in which the entity operates. For the purpose of the consolidated financial statement, the results and financial position of each entity are expressed in United States dollars, which is the functional currency of GLG Corp Ltd and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transaction in currencies other than the entity's functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the period in which they arise except that:

(i) exchange differences which relate to assets under construction for future productive use, which are included in the cost of those assets where they are regarded as an adjustment to interest costs on foreign currency borrowings (refer Note 2 (k));

(ii) exchange differences on transactions entered into in order to hedge certain foreign currency risks; and

(iii) exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognised in the foreign currency translation reserve and recognised in profit or loss on disposal of the net investment.

On consolidation, the assets and liabilities of the Group's foreign operations are translated in United States dollars at exchange rates prevailing on the balance sheet date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are classified as equity and transferred to the groups foreign currency translation reserve. Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity on or after the date of transition to A-IFRS are treated as assets and liabilities of the foreign entity and translated at exchange rates prevailing at the reporting date. Goodwill arising on acquisitions before the date of transition to A-IFRS is treated as an Australian dollar denominated asset.

(d) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

(i) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or

(ii) for receivables and payables which are recognised inclusive of GST.
The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified within operating cash flows.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, stock rotation, price protection, rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered to buyers' forwarders which is taken to be the point in time when the buyers have accepted the goods and the related risks and rewards of ownership.

Rendering of services

Rendering of services is commission income recognised upon completion of services rendered to fabric suppliers and garments manufacturers.

Dividend and interest revenue

Dividend revenue is recognised on a receivable basis. Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

(f) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items. In principle, deferred tax liabilities are recognisedfor all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, branches, associates and joint ventures except where the consolidated entity is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient tax able profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the consolidated entity expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(f) Income tax (con'd)
Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Company/consolidated entity intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period
Current and deferred tax is recognised as an expense or income in the income statement, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill on excess.

(g) Cash and cash equivalents
Cash comprise cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash, which are subject to an insignificant risk of changes in value and have a maturity of three months or less at the date of acquisition. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(h) Financial assets
Investments are recognised and derecognised on trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, net of transaction costs except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value.

Subsequent to initial recognition, investments in subsidiaries are measured at cost in the Company's financial statements. Subsequent to initial recognition, investments in associates are accounted for under the equity method in the consolidated financial statements and the cost method in the Company financial statements. Other financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss', 'held-to-maturity' investments, 'available-for-sale' financial assets, and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method
The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premium or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period. Interest income is recognised on an effective interest rate basis for debt instruments other than those financial assets 'at fair value through profit or loss'.

Loans and receivables
Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment.

Interest income is recognised by applying the effective interest rate.

Impairment of financial assets
Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted.

The carrying amount of financial assets including uncollectible trade receivables is reduced by the impairment loss through the use of an allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised through profit and loss.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(h) Financial assets (cont'd)

For financial assets carried at amortised costs, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of financial assets including uncollectible trade receivables is reduced by the impairment loss through the use of an allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognised the financial assets and also recognises a collateralised borrowings for the proceeds received.

(i) Inventories

Inventories are valued at the lower of cost and net realisable value. Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventory on hand by the method most appropriate to each particular class of inventory, valued on a first in first out basis. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

(j) Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are carried in the balance sheet at fair value, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Fair value is determined on the basis of an independent valuation prepared by external valuation experts, based on discounted cash flows or capitalisation of net income, as appropriate. Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the balance sheet date.

Depreciation is provided on property, plant and equipment, including freehold buildings but excluding land. Depreciation is calculated on a straight line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value. Leasehold improvements are depreciated over the period of the lease or estimated useful life, whichever is the shorter, using the straight line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period. The following estimated useful lives are used in the calculation of depreciation

Leasehold improvements	5-10 years
Plant and equipment	5- 10 years
Furniture, fittings and office equipment	3-5 years
Motor vehicles	5-10 years

(k) Borrowing costs

Borrowings are recorded initially at fair value, net of transaction costs. Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the borrowing using the effective interest rate method.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(l) Leased assets

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Group as lessee

Assets held under finance leases are initially recognised at their fair value or, if lower, at amounts equal to the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

Finance leased assets are amortised on a straight line basis over the estimated useful life of the asset.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Lease incentives

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefits of incentives are recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

(m) Intangible assets

Patents, trademarks and licences

Patents, trademarks and licences are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight line basis over their estimated useful lives of 5 years. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period.

Internally-generated intangible assets - research and development costs

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Where no internally-generated intangible asset can be recognised, development expenditure is recognised as an expense in the period as incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following are demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development

Internally-generated intangible assets

Internally-generated intangible assets are stated at cost less accumulated amortisation and impairment, and are amortised on a straight-line basis over their useful lives as follows:

- capitalised development costs 5 years.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(n) Employee benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave, and sick leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within 12 months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Provisions made in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the consolidated entity in respect of services provided by employees up to reporting date.

Defined contribution plans

Contributions to defined contribution superannuation plans are expensed when employees have rendered service entitling them to the contributions.

(o) Provisions

Provisions are recognised when the consolidated entity has a present obligation (legal or constructive) as a result of a past event, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

Warranties

Provisions for warranty costs are recognised at the date of sale of the relevant products, at the Directors' best estimate of the expenditure required to settle the consolidated entity's liability.

(p) Financial instruments issued by the Company

Debt and equity instruments

Debt and equity instruments are classified as either liabilities or as equity in accordance with the substance of the contractual arrangement. An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

Compound instruments

The component parts of compound instruments are classified separately as liabilities and equity in accordance with the substance of the contractual arrangement. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for a similar non-convertible debt. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or upon the instruments reaching maturity. The equity component initially brought to account is determined by deducting the amount of the liability component from the amount of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects and is not subsequently remeasured.

(p) Financial instruments issued by the Company (cont'd)

Transaction costs on the issue of equity instruments

Transaction costs arising on the issue of equity instruments are recognised directly in equity as a reduction of the proceeds of the equity instruments to which the costs relate. Transaction costs are the costs that are incurred directly in connection with the issue of those equity instruments and which would not have been incurred had those instruments not been issued.

Interest and dividends

Interest and dividends are classified as expenses or as distributions of profit consistent with the balance sheet classification of the related debt or equity instruments or component parts of compound instruments.

Financial liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss where the financial liability is either held for trading or it is designated as at fair value through profit or loss.

A financial liability is held for trading if:

- it has been incurred principally for the purpose of repurchasing in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading is designated as at fair value through profit or loss upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; orit forms part of a contract containing one or more embedded derivatives, and AASB 139 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss. Financial liabilities at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability. Fair value is determined in the manner described in Note 28.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(q) Share-based payments

Equity-settled share-based payments with employees and others providing similar services are measured at the fair value of the equity instrument at the grant date. Fair value is measured by use of a binomial model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations. Further details on how the fair value of equity-settled share-based transactions has been determined can be found in Note 28.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest.

At each reporting date, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period, with corresponding adjustment to the equity-settled employee benefits reserve.

No amount has been recognised in the financial statements in respect of the other equity-settled shared-based payments.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

Receivables

Management refer to the current carrying value of the GLIT receivable (the Company's primary sourcing partner), and the outstanding receivable owed by Mervyn's (a previous customer, that sought bankruptcy protection and ultimately has been placed into bankruptcy). The carrying value of these receivables (including current impairment charges) have been based on management's judgment and based on various underlying assumptions and estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Foreign Currency

The Group enters into certain transactions denominated in foreign currencies to manage the risk associated with anticipated garment export transactions. Further details of foreign currency transactions are disclosed in Note 27 to the financial statements.

4. SEGMENT INFORMATION

GLG operates predominantly in one industry and geographical segment which is the sale of knit wear apparel to the United States market.

(i) One of the subsidiary companies, Ghim Li Global Pte Ltd was awarded the Global Trader Program status for a period of 5 years from 1 January 2003. The Global Trader Program status was subsequently renewed and extended for another 5 years with effect from 1 January 2008. Subject to the terms and conditions prescribed by the Income Tax Act of Singapore and the Global Trader Program, income derived from qualifying trading transactions is taxed at the concessionary rate of 10%.

8. INCOME TAXES (CONT'D)

The tax rate used in the reconciliation on page 48 is the corporate tax rate of 30% payable by Australian corporate entities on taxable profits under Australian tax law. There has been no change in the corporate tax rate when compared with the previous reporting period. However, for the purposes of tax reconciliation, certain subsidiaries were operating in Singapore and Hong Kong, in which these entities are taxable at the respective local tax rates.

The Singapore government has announced on 15 February 2007 that the corporate income tax rate will be changed from 20% to 18% with effect from the Year of Assessment 2008.

The Hong Kong government has announced on 27 February 2008 that the corporate income tax rate will be changed from 17.5% to 16.5% with effect from the Year of Assessment 2009.

Taxable temporary differences in relation to investments in subsidiaries, branches and associates and interest in joint ventures for which deferred tax liabilities have not been recognised are attributable to the following:				
Subsidiaries	-	198	-	-
	-	198	-	-

The Group has no current intention to dispose of these investments, a deferred tax liability has not been recognised in relation to investments within the tax-consolidated group. Furthermore, temporary differences that might arise on disposal of the entities in the tax-consolidated group cannot be reliably measured because of the inherent uncertainties surrounding the nature of any future disposal that might occur.

(i) Third parties offset: When GLG receives an order from a customer, it either receives a letter of credit or an open account for the customer. Upon completion of the order, GLG converts this letter of credit or open account into a bill payable with a bank. GLG will then use the cash to pay its creditors. When the letter of credit matures or the customer pays off the open account, the bank will offset funds from the third party trade receivable against bills payable.

(ii)Other party- GLIT Group and Related Parties offsets: Presently and reflected in the Balance Sheet at 30 June 2009 when Other Party-GLIT Group buys fabric from textile mills GLG issues a letter of credit on their behalf. In order to maximise the discounts available, GLG converts for Other Party- GLIT Group the letter of credit it has issued into a Trust Receipt.

The bank will immediately pay the textile mill. After completion of the apparel order, Other Party- GLIT invoices GLG and a trade payable is recorded. GLG immediately has a legally enforceable right to offset the amount owed by Other Party- GLIT and settle the balance, if any, with Other Party- GLIT on a net basis.

The offset takes place between 90 days to 120 days depending on the date of maturity of the Trust Receipt.
A similar offset arrangement has been made with Related Parties transactions.

Refer also to Note 10 (i) for details of the Ghim Li Holdings Co Pte Ltd guarantee issued in respect of the other party-GLIT Group receivable.

The average credit period on sales of goods and rendering of services is 60 days. No interest is charged on the trade receivables outstanding balance.

Before accepting any new customers, the Group uses an external scoring system to assess the potential customer's credit quality and defines credit limits by customers. Limits and scoring attributed to customers are reviewed twice a year. 80% of the trade receivables that are neither past due nor impaired have the best credit scoring attributable under the external credit scoring system used by the Group. Of the trade receivables balance at the end of the year, $2.5 million (2008: $4.8 million) is due from Macy's the Group's largest customer.

In determining the recoverability of trade receivables, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the Directors believe that there is no further credit provision required in excess of the allowance for doubtful debts.

(i) The loans owed by Other Party – GLIT Group consists of two amounts:

(a) US$3,368 thousand (FY 2008: Nil) which is the equivalent of a S$5,000 thousand denominated receivable repayable over a period of 48 months at a fixed interest rate of 5.00% p.a. commencing June 2009.

(b) US$1,717 thousand (FY2008: US$5,085 thousand) which is repayable in a lump sum not later than 30 June 2010 together with the accrued interest. Other Party- GLIT is charged commercial rates of interest on the amount owed, based on a margin above Singapore Inter-Bank Offer Rate (SIBOR). Other Party-GLIT may repay the monies early without penalty.

10. OTHER FINANCIAL ASSETS (CONT'D)

Ghim Li Holdings Co. Pte Ltd the ultimate holding company of GLG Corp Limited ('Group') has guaranteed the repayment of both the above amounts in the event of a default by Other Party –GLIT. The guarantee from Ghim Li Holdings Co Pte Ltd is in the form of two undertakings. The first commits Ghim Li Holdings Co Pte Ltd to return the proceeds from any sale of its interest in the Group shares by Ghim Li Holdings Co Pte Ltd to the Group in settlement of the outstanding receivables owed by Other Party-GLIT. The second requires Ghim Li Holdings Co Pte Ltd to return the proceeds from any sale of Other Party-GLIT share to the Group against the outstanding receivables owed by Other-Party-GLIT Co Pte Ltd to the Group. In the event these guarantees are not sufficient to meet the full value of the long term trade receivables, the major shareholder and Chairman has personally undertaken to guarantee the repayment of other party. The terms of this guarantee is that the Chairman personally guarantees an amount which shall not exceed $3 million. The Chairman shall hold and deposit cash funds in an interest-bearing account which at no time will be less than $2 million.

(ii) The long term trade receivable owed by Third party of US$2,062 thousand (FY2008: Nil) arises from the following:

(a) US$1,883 thousand which is the carrying value of an administrative claim of US$3,714 thousand against the estate of Mervyns which is presently in liquidation under Chapter 11 of the US Bankruptcy Code. Based on legal advice, the administrative claim of US$3,714 thousand is fully recoverable if two pending litigations by the estate of Mervyn's are successful. The Directors consider that the current excess amount of the administrative claims over its carrying value is sufficient to account for delays or discounts to be given on eventual settlement of the administrative claims.

(b) US$179 thousand which is refund of commissions from the agent of Mervyn's pending distribution of administrative claims to them.

During the year the Company has written down the carrying value of its subsidiary company to US$30,000 thousand (US$53,410 thousand as on 30 June 2008) after accounting for a lower growth rate in profitability and higher cost of equity in asscessing its fair value.

27. FINANCIAL INSTRUMENTS

(a) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from 2008.

The capital structure of the Group consists of debt, which includes the borrowings disclosed in Note 15, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in Notes 16, 17 and 18 respectively. In addition, trust receipts are utilised as disclosed in Note 9 in managing the capital of the Group.

Operating cash flows are used to maintain and expand the group's assets, as well as to make the routine outflows of tax, dividends and repayment of maturing debt. The Group's policy is to borrow centrally, using of variety of capital market issues and borrowing facilities, to meet anticipated funding requirements.

Gearing ratio

An integral function of the Group's Audit Committee is risk management. The Audit Committee reviews the capital structure on a semi-annual basis. As part of this review the committee considers the cost of capital and the risks associated with each class of capital. The Group's gearing is managed internally to meet industry norms, however certain aspects of the financial presentation of the balance sheet in accordance with accounting standards causes the determination of the exact gearing ratio difficult. These presentation issues arise from the reverse acquisition accounting stipulated by the accounting standards in 2005. This accounting treatment results in consolidated equity being lower than available capital of the parent entity. In addition GLG Corp Ltd, as disclosed in earlier Notes 9 and 15, has the ability to offset trust receipts with receivables due to the nature of their operations, which has the effect of reducing apparent debt levels. The operation of the trust receipts is detailed in Note 9. Based on recommendations of the Committee the Group will balance its overall capital structure through the payment of dividends as well as the issue of new debt or the redemption of existing debt.

The gearing ratio at year end was as follows:

	CONSOLIDATED		COMPANY	
	2009 US$'000	2008 US$'000	2009 US$'000	2008 US$'000

27. FINANCIAL INSTRUMENTS (CONT'D)

(c) Financial risk management objectives

The Group co-ordinates access to domestic and international financial markets, and manages the financial risks relating to the operations of the consolidated entity.

The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes. The use of financial derivatives is governed by the consolidated entity's policies approved by the board of directors, which provide written principles on the use of financial derivatives. Compliance with policies and exposure limits is reviewed by the internal auditors on a continuous basis.

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group minimises its financial risk of changes in foreign currency exchange rate through the natural hedge of matching its revenues and purchases in US dollars and matching of its assets and liabilities in US dollars.

(d) Foreign currency risk management

The Group minimises its financial risk of changes in foreign currency exchange rate through the natural hedge of matching a significant portion of its revenues and purchases in US dollars and matching a significant portion of its assets and liabilities in US dollars. The Group undertakes certain transactions denominated in foreign currencies, hence exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The carrying amount of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date is as follows:

	LIABILITIES		ASSETS	
	2009 US$'000	2008 US$'000	2009 US$'000	2008 US$'000

27. FINANCIAL INSTRUMENTS (CONT'D)

Foreign currency sensitivity analysis

The Group is mainly exposed to movements in the value of Singapore dollars and Hong Kong dollars compared to the US dollar.

The following table details the Group's sensitivity to a 10% increase and decrease in the United States dollar against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number indicates an increase in profit or loss where the United States dollars strengthens against the respective currency. For a weakening of the United States dollars against the respective currency there would be an equal and opposite impact on the profit, and the balances below would be negative.

(i) This is mainly attributable to the exposure outstanding on Singapore dollars receivables and payables at year end in the Group.

(e) Interest rate risk management

The Group is exposed to interest rate risk as entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings. Hedging activities are evaluated regularly to align with interest rate views and define risk appetite; ensuring optimal hedging strategies are applied, by either positioning the balance sheet or protecting interest expense through different interest rate cycles.

The Group's exposure to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this Note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rate's for both derivative and non-derivative instruments at the reporting date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the possible change in interest rates.

At reporting date, if interest rates had been 50 basis points higher or lower and all other variables were held constant, the Group's:

- net profit would increase by $59 thousand and decrease by $21 thousand (2008: increase by $45 thousand and decrease by $10 thousand). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

(f) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded are spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the Audit Committee annually. The Group measures credit risk on a fair value basis.

Trade accounts receivable consist of a number of retail customers located in the United States of America. Ongoing credit evaluation is performed on the financial condition of accounts receivable and, where appropriate, trading within the credit limits or discounting of receivables on non-recourse basis with credit acceptance or insurance in place.

The consolidated entity does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit-ratings as signed by international credit-rating agencies.

The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the consolidated entity's maximum exposure to credit risk without taking account of the value of any collateral obtained.

The Company also faces risks of orders cancellation. This is related to fabric, accessories and manufacturing costincurred on orders cancelled prior to shipment. The company is now exploring credit insurance to cover this risk as well.

(g) Liquidity risk management

The consolidated entity manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Included in Note 27(b) is a listing of additional undrawn facilities that the Group has at its disposal to further reduce liquidity risk.

27. FINANCIAL INSTRUMENTS (CONT'D)

Liquidity and interest risk tables

The following table details the Group's remaining contractual maturity for its non-derivative financial assets and liabilities. The tables have been drawn up based on the undiscounted cash flows of financial assets and liabilities based on the earliest date on which the Group can be required to receive/pay. The table includes both interest and principal cash flows.
